VIVARISTIC EXPERIENCE

Date (from)

[geographical area, family](#)

I have kept Goodeids for over 30 years

[breeding success](#)

I have bred about fifteen different species of Goodeids

Motive force

I have visited Lake Zacapu with Michael Kock and the GWG in 2016. Prior to that, I kept Allotoca zacapuenses and bred them for three generations before they stopped breeding for me. I would like to try to breed this endangered species again to help conserve them.
